This review is from: State of Panic (Paperback)

I couldn't put the book down! I couldn't wait to see what would happen next!

I had never read anything by this author before but you can bet I will be looking for her other books.

Thank you for a Thrilling Story.State of Panic

5.0 out of 5 stars **Great twists and turns!**, August 16, 2011

By **Brenda Sedore**

This review is from: State of Panic (Kindle Edition)

Really enjoyed this story by new author, Lori Gordon and I'm looking forward to more from her. State of Panic grabbed me from the first page and I had a hard time putting it down. I really enjoyed the characters and all the twists and turns. It starts with a great premise and has a satisfying finish. Highly recommended.

5.0 out of 5 stars **Engaging Heroine**, August 8, 2011

This review is from: State of Panic (Kindle Edition)

Lori Gordon has added a new heroine to the pantheon of memorable characters in thriller/suspense literature-- Sierra Montgomery, trapped in the deadly war between madmen aspiring to rule the world and the good guys trying to stop them. Problem is, she can't always tell who's who. Sierra didn't choose this battle, but she doesn't back down from it, either. Miss Gordon keeps

the pressure on Sierra--and on the reader--until the very end of this fast-paced book. Highly recommended!

5.0 out of 5 stars **Incredible Book!**, August 3, 2011

This is seriously an incredible book. I definitely recommend this title. I was hooked on page one and even now that I have finished the book I'm still held in its grasp. What an achievement!

4.0 out of 5 stars **Thrilling End to End**, August 3, 2011

This review is from: State of Panic (Kindle Edition)

When you're running from an assassin named Skinbone Harris, and your only confidant, a geeky computer genius you just met in a coffee shop, is named "The Shark" - you know you're having a bad day. That's where Sierra Montgomery finds herself after witnessing the fiery murder of her fiance. She does the only thing she can. She runs for her life. And when her closest friend is murdered in similar fashion, she realizes it's not coincidence, it's a conspiracy. As she flees, she tries to piece together a mystery that grows more insidious and explosive with every new detail.

This story starts at a sprint and doesn't let up. It's a sizzling summer read, fall read, blood pumping winter read, or afresh spring read. The one thing I can guarantee is once you start, you won't stop.

5.0 out of 5 stars **Awesome**, August 7, 2011

This review is from: State of Panic (Kindle Edition)

It didn't take long for this book to grab me. The action starts almost immediately and picks up steam but never turns into "The Perils of Pauline" type action. The relationships between the characters rings true even when those relationships do a complete reversal. Or are they real reversals or just an act? Even though I found myself humming the theme from Twilight Zone it suddenly started to make sense. but the journey into the weird was fun. As the book was winding down I wanted more, not more danger but more of 'but what happens now?' The Epilogue was satisfying but I would have loved more of the story, a more detailed explanation. To say more would turn this into a spoiler and the book needs to be enjoyed and savored. It's hard to believe that this is the author's first book and I hope she write many more. I'll read anything she writes.
